

Modern access solutions.

Residential Series: Touchscreen PoE IP intercom monitors with handset

These modern IP intercom door monitors are ideal for homes or businesses. The monitor communicates with the apartment door station via handset, and features live-view of the door station camera, along with remote access.

- 7" touchscreen indoor intercom monitor with handset
- Connect to door stations and monitors via Ethernet
- MicroSD card slot (up to 32GB) for edge recording
- Integrates with most electronic sensors & alarms
- Dual-way bidirectional talk with echo suppression
- Receive visitor notifications, leave audio & video messages, remote view, remote unlock & 2-way talk
- Desktop mounting bracket available (*sold separately*)
