

300Mbps 360° Wireless Access Point

The LGAP300C is a ceiling-mounted 360° WiFi antenna with dual frequency 2.4GHz/5.8GHz. This wireless transmitter effectively delivers stable WiFi connections across wide areas for multiple users.

- 300Mbps connection speed
- Dual LAN/WAN ports with PoE
- Strong signal with dual antenna design
- 360° signal angle
- Ceiling & wall mountable

Includes:

- 1 x WiFi access point
- 1 x Network cable
- 1 x Power cable
- 1 x Instruction manual

Specifications	LGAP300C
Hardware Specification	Chipset: Qualcomm QCA9531 Memory: 64MB; Flash: 16MB;
Antenna	2 x 3dBi Antennas
Wireless Rate	300Mbps
Radio Frequency	Transmitting Power: 100mW (20dBm) Receiving Sensitivity: -96dBm Operating Frequency: 2.4GHz-2.4835GHz
Physical Ports	1 x 10/100Mbps WAN RJ45 (Support PoE power supply) 1 x 10/100Mbps LAN RJ45 (Support PoE power supply) 1 x Reset / WPS Button
Indicator Lights	Three Colour Indicators
Power	PoE Power Supply (802.3af) / 48V 0.32A Power Adapter
Power Consumption	<8W
Installation	Ceiling Mount / Wall Mount
Ingress Protection	IP41
Physical Features	200 x 200 x 18mm / 0.32kg
